CBD SKIN AND BODY CARE

ABOUT US

Welcome to MJ Esthetics CBD skin and body care. We have the CBD-based pain relief and skin products you've been hankering for. Products that give results at a fair price. Read through and find your new favorite thing. You'll be glad you did, because quality matters around here. Choose from our wide selection of skincare and spa products to drops and salves that can change your health.

Jessica infuses all of the CBD products you purchase; she has 10+ years of hands-on experience in infusing and handling cannabinoids.

It can be intimidating trying to find good CBD products. So, we try to make it easy by being honest and clear when it comes to our products. We offer quality, knowledge, community, and fair pricing because we believe natural healing shouldn't be overpriced.

We guarantee satisfaction in our products.

CBD LIP BALMS

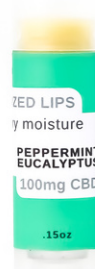

100mg of CBD in our lip balm makes it one of the most potent on the market. It's not just a balm, it's THE balm. Basically, our balm is chock-full of CBD antioxidants to nourish the lips. Due to this and its anti-inflammatory properties it's a perfect option for extreme conditions and harsh elements. Not to mention that it is made with the best organic, raw shea butter on the market. We also only use organic essential oils for scent and therapy.

CBD SALVES

A CBD topical that works fast to give relief to many ailments, including pain, rashes, bug bites, cuts, sunburns, ingrown hairs, and more. This pain-relieving blend rubs on like a lotion and works quickly with an infusion of CBD and other plant-based anti-inflammatories.

We infuse our pain salves with arnica, plantain, dandelion, willow bark, reishi mushrooms, and magnesium. We go beyond just our high dose of CBD and add a whole lot of healing earth in our pain relief topicals.

CBD LINIMENT SPRAY

It's a CBD pain spray that works by reducing inflammation. Due to its potent infusion of CBD and herbs, our topical liniment spray helps relieve aches upon application and gives a cooling effect.

This is a CBD topical option that goes above and beyond just relieving pain. This spray is oil-free and leaves no oils or residue on the skin for those who prefer a non-lotion option. In addition, a spray application makes hard-to-reach places easier, and no rubbing is required, making it one of our most popular pain relief options.
